

**April** *Aphrilis* derived from the Greek *Aphrodite*, named for the Greek **gODDESS Of Love**, the goddess that the Romans called *Venus!*

**But it is really** God's ABIB/Aviv=1st Month, pagan name Nisan, and Ziv God's 2nd month, pagan name Iyar. 5783 by Rabbis' "contrived" dating, but it really is +207 years=5990/2023.

This calendar is NOT an averaging calendar. If you believe that Christ used an Averaging Calendar, then you do NOT have salvation, because you cannot add "ANYTHING" to God's Bible Deut 12:32.

Because if Christ **added an averaging calendar** then He broke His Father's Law and therefore was NOT and could not be a valid unblemished sacrifice for us=NO averaging Holy Days.

This Calendar portrays the "EXACT" Holy Day, as **no minister/person has the right to** average/**re-set** God's "SET" APPOINTED **HOLY Time!** [www.SchoolOfElijah.org](http://www.SchoolOfElijah.org)

**Start/Celebrate** God's Holy Time 1 day later in all Countries **WEST of USA to Jerusalem**, because the 1884 IDL International Date Line MOVED days 1 day ahead  
**Celebrate 1 day later** in all Countries East of Jerusalem Longitude 35°12'58.79"E. which includes Australia, New Zealand, India, Pakistan, China, Russia, Iraq, Jordan

If you follow the IDL, you will start God's Sabbath on the 6<sup>th</sup> Day Thursday Night and daytime on Friday, in Australia, New Zealand, etc., (see maps on next page for PROOF) which is 1 day EARLIER before God starts His Sabbath Day at Jerusalem. The Lunar Calendar for Jerusalem, Israel "sets" the START DATE for all God's months, going Westward around the earth from Jerusalem. You do NOT follow man's phony 1884 IDL (International Date Line) that causes Australia to move God's Holy Sabbath to the 6<sup>th</sup> day Friday starting Thursday evening, which is ridiculous. Yet all the FOOLISH Church Ministers stupidly follow the 1884 IDL= having God's Sabbath start on Thursday night in Australia. New Zealand, etc..

The **International Date Line (IDL)** is man's invention & PHONILY internationally accepted as a demarcation of the surface of Earth, running between the South and North Poles and serving as the boundary between one calendar day and the next. It passes through the Pacific Ocean, roughly following the 180° line of longitude and deviating to pass around some territories and island groups. Crossing the date line westbound increases the date by 1 whole day.

This calendar is the 6th Year of the 4<sup>th</sup> Sabbatical Cycle. The 27<sup>th</sup> year of the 120<sup>th</sup> year Jubilee Cycle. The 4th Sabbatical Cycle after the 119<sup>th</sup> Jubilee Cycle.  
The Sabbatical Cycle of Sword, Famines.  
Moon Phases are based on Jerusalem Time.

The image shows a world map where time zones are represented by vertical color bands. A vertical grey bar is positioned at Jerusalem, which is marked with a pin and the letter 'A'. The map shows the progression of time zones from Jerusalem (UTC+2) westward to UTC-14 and eastward to UTC+14. A legend at the bottom of the map lists the time zone offsets: +13, +14, -11, -10, -9, -8, -7, -6, -5, -4, -3, -2, -1, UTC, +1, +2, +3, +4, +5, +6, +7, +8, +9, +10, +11, +12. Below the legend, there is a search bar with the text 'Search city:' and a button labeled 'Show city on map' with a magnifying glass icon. The text 'Jerusalem' is displayed next to a pin icon. A copyright notice '© timeanddate.com 2023' is visible in the bottom right corner of the map area.
