

Abortion – Modern Holocaust

The article below is taken from a letter we received from one of our readers. It speaks loudly as a trumpet-blast, providing a thoughtful, yet horrifying, analysis of an ongoing holocaust and global genocide against the poor, defenseless, lovely, and innocent unborn. Surely God's wrath and judgment will not be held back much longer.

Richard Markland

When I view events I often wonder just how much longer God is going to allow this country to continue without carrying out judgment due to our rebellion. Recently I've been reading articles on abortion and it's bothering me deeply. So little is said about this tragedy that it's prompted me to write and express not only my concern but absolute outrage towards the deafening silence in this country.

Only because I realize God is aware of every single child that is tragically murdered do I see true and absolute hope. The day is coming when they will be resurrected and live in a world that will be nothing even remotely similar to the one that now exists. I have to keep reminding myself of this when I see the tragic slaughter of millions of defenseless babies. I fear for this country when God says enough is enough.

The cold, hard facts speak for themselves, but it's a reality no politician wants to touch. Churches across the country are basically silent and I fear that anyone who has the courage to speak out against abortions is going to be charged with a hate crime because it's speaking out against a woman's choice and the right to choose.

Abortion is murder and America's death camps exist all across the country behind closed doors.

We condemn China's one child policy which has resulted in a shortage of 40 million girls. India is a nation of 50 million less girls, all as a result of abortion. I can't comprehend the tears shed by women who are forced to sacrifice a defenseless unborn child. The tears are seen and the crying is heard by God and Christ. The perpetrators will not go unpunished.

Women in this country, however, are not forced which makes us far more guilty. We are led to believe that rape and incest is so common to the point that it justifies abortion. It has been proven that such cases are not as common as what many pro-abortionists state.

There have been 53 million abortions since Roe vs. Wade in 1973, yet they are faceless and mere statistics.

The number of babies killed yearly in the U.S. alone by abortion is equal to the number of soldiers killed in all US wars combined. We mourn for those who die fighting for the country by draping a US flag over their coffins, and they are buried with full honors. The unborn do not have a fighting chance. They are placed piece by piece in a trash can and put in a plastic bag

before thrown in a dumpster. The unborn are much like a McDonald's wrapper. Both are simply thrown away and forgotten.

Approximately 3,000 Americans died in the World Trade Center. Every day, more than 3,000 babies die from abortion. We have mourned the loss of Americans on 9/11, but we get up in the morning and go to bed at night without realizing what has happened to the unborn child.

In New York City 41 percent of all pregnancies end in abortion. We shake our heads when senseless crimes are committed, but murders taking place in the city's abortion clinics are not considered a tragic crime. We were terrorized by two planes on 9/11 that destroyed the World Trade Center. We were outraged by the act. The unborn are terrorized by two hands that tear limb from limb and we ignore a far greater crime that continues day after day.

Fifty-two percent of all Afro-American pregnancies end in abortion, but since the race card is used at every turn to emphasize such a statistic is considered racist.

A trimester abortion at ten weeks costs \$451.00. It's gift-wrapped as family planning by Planned Parenthood. We've become a nation of parentless parents and it's all funded by the federal government.

Anti-abortionists are considered terrorists by the Department of Homeland Security. To stand up and be a defender of life will end up costing the lives of those who cherish it.

A doctor in Philadelphia was recently charged with killing seven babies that were born alive, yet witnesses said he slaughtered hundreds of babies by severing their spinal cords and splitting their necks. Little coverage of this was reported by the state owned and operated mainstream media. How many people even remotely remember this story?

Some abortion clinics sell aborted baby parts to medical researchers. The company Senomyx has gone beyond criminal by using the cells of aborted babies to carry out research of flavor development for the companies of Pepsico and Kraft.

Planned Parenthood oversees America's death camps for the unborn. Thirty of its executives make over \$200,000 a year. A few make over \$300,000. All of its offices and the homes owned by executives should be painted bright red because the blood of the unborn runs deep. The Auschwitz, Treblinka and Birkenau death camps of America are abortion clinics in city after city.

Not a single politician has the courage to stand up for the unborn. Such a platform would be the death knell for anyone who would stand up for the children who can't speak a single word of protest on their behalf.

It's easy to look at crime on the streets of cities across the country as a national scourge, but abortion is far deadlier than handguns. Ezekiel 7:23 – "Make a chain, for the land is full of bloody crimes, and the city is full of violence." Cities are linked with a commonality that is a stench in the nostrils of God. While the country's leaders and the American people turn a blind eye, God sees the slaughter and butchery of the unborn.

The only hope we have is the return of Christ and the resurrection of children as a result of the total disregard for human life.
